WEBSITE CONCEPT AND DESIGN BY

LET'S DISCUSS YOUR WEBSITE

Fourteen pages. One coherent experience.

Give the rooms, experiences and human story of Surya Shanti the space they deserve.

01 / THE GUEST JOURNEY

Find your place to stay.

A room overview and five dedicated accommodation pages, with real photographs and clear descriptions.

02 / THE GUEST JOURNEY

Discover the experience.

Distinct Spa, Yoga, Dining, Experiences and Gallery pages bring the different parts of a stay together.

03 / THE GUEST JOURNEY

Meet the people.

Our Story follows Ibu Ati, Pauline and Sylvie, the birth of Surya Shanti and its connection to Sidemen.

YOUR CONTENT. A MORE PERSONAL PRESENTATION.

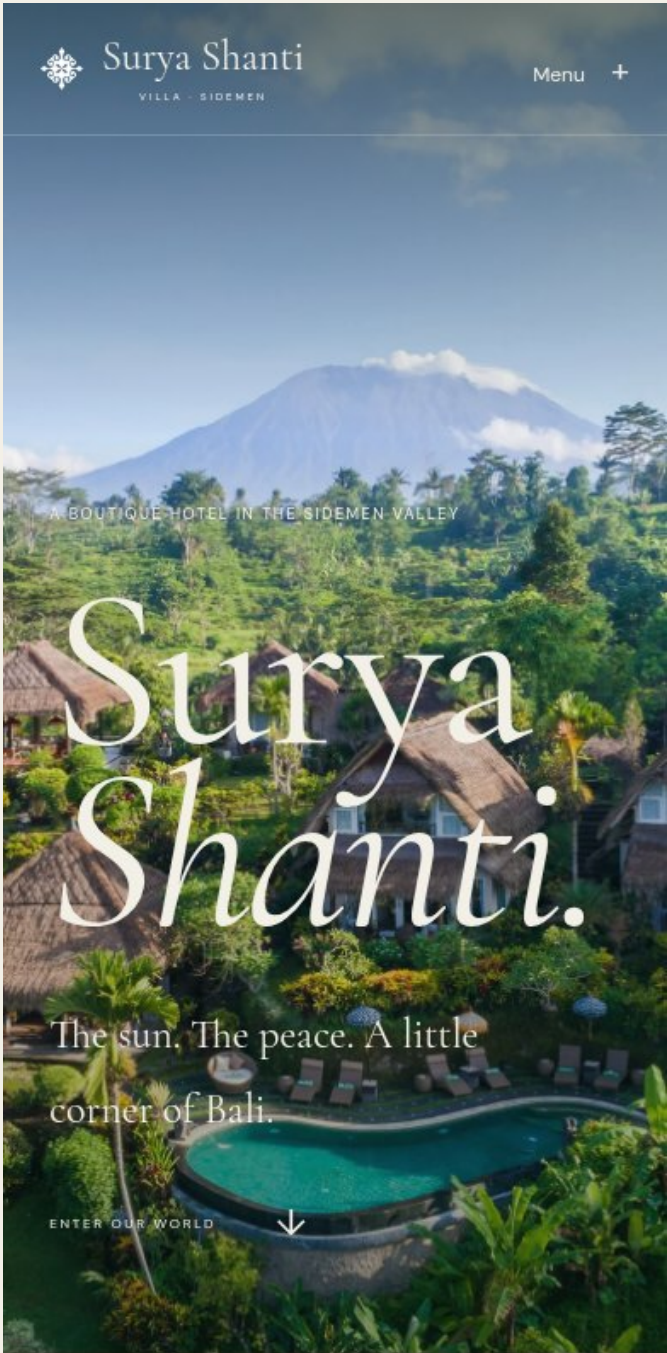

The concept uses your existing photography and verified hotel information. A warm visual identity, generous images and clear navigation keep Surya Shanti at the centre of the experience.

DESKTOP & MOBILE

Clear contact options and visible links to your existing reservation service.

Built around your priorities.

A starting point for a conversation about Surya Shanti's next website.

I created this concept specifically for Surya Shanti.

It shows how your website could reflect your identity and make your hotel easier to explore — from the first impression to the rooms, wellness, cuisine and people behind the welcome.

We can refine the design, content and page structure together, then agree on the scope of the project.

Would you be open to a short conversation about your website?
