LET'S DISCUSS YOUR WEBSITE

# Your own corner of Sidemen.

Let guests picture the room, the terrace and the view before they arrive.

## From the room to the view.

Canopy beds, open terraces and views towards the valley or Mount Agung give each accommodation its own character. Generous photography and carefully placed details help guests picture their stay. The redesign makes the differences between your rooms and villas easier to understand, supporting a more informed choice before visitors enquire or check availability.

### THE OPPORTUNITY FOR SURYA SHANTI

A room overview and five dedicated accommodation pages make it easier to explore what makes each category different.

# Make room for stillness.

Give your spa a calm presence that visitors can feel through the screen.

THE SIGNATURE MESSAGE

Ninety minutes.  
*Nothing to rush.*

BODY & FACE · 90 MINUTES

Aromatic oils and the care of our therapists. An unhurried body and face massage at the heart of our spa selection.

THE OPPORTUNITY FOR SURYA SHANTI

A dedicated page brings your treatment selection, real photographs and a clear enquiry into one unhurried experience.

## Wellness with a real presence.

Large photographs, soft spacing and quiet typography give the spa a calm, distinctive presence. Aromatic-oil massage and the traditional Lulur scrub are introduced through your real imagery and descriptions. For Surya Shanti, this creates a clearer invitation to discover its treatments, understand the experience and contact the team about a moment of care.

A CLOSER LOOK AT THE CONCEPT

# Find your rhythm in Sidemen.

Make yoga a visible part of the stay, rooted in the valley and your own practice.

YOGA IN SIDEMEN

## Breathe with *the valley.*

Sun salutations, movement and breathwork in the fresh air of Sidemen.

[DISCOVER](#) ↓

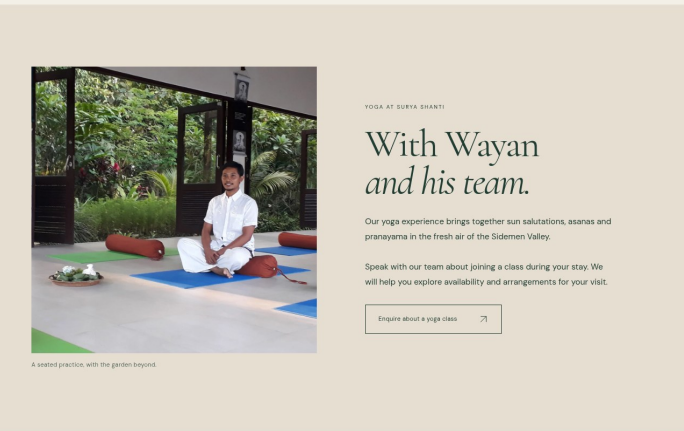

### THE OPPORTUNITY FOR SURYA SHANTI

Real photographs and a clear introduction give this experience its own identity, with a direct way to enquire about a class.

## Space to breathe. Time to pause.

The valley’s greenery and your own yoga photography create an immersive setting for this experience. The page introduces sun salutations, asanas and pranayama — breathwork — with Wayan and his team. Giving yoga space to unfold helps guests understand its place within a stay at Surya Shanti and explore classes through the hotel.

### A CLOSER LOOK AT THE CONCEPT

# Stay for the view. Remember the table.

Let the kitchen become part of the reason guests remember your hotel.

THE BALINESE TABLE

## A little of Bali, *on your plate.*

Skewers, fragrant sauces, banana-leaf parcels and the warmth of a shared meal. Our table d'hôtes brings together a selection of Balinese dishes, alongside the kitchen's fusion creations.

*The pleasure is in tasting a  
little of everything.*

### THE OPPORTUNITY FOR SURYA SHANTI

The restaurant, Balinese dishes, breakfast and personal touches are presented as a complete experience, with your own photography.

## A Balinese heart. A French touch.

The restaurant, its views and the dishes become a story of their own. Local ingredients meet French know-how; homemade bread, marmalades and garden-fruit ice cream express the kitchen's personal touch. This visual journey helps guests discover the care behind your food and recognise dining as a distinctive part of the Surya Shanti experience.

### A CLOSER LOOK AT THE CONCEPT

# Three women. A place with a heart.

## THE OPPORTUNITY FOR SURYA SHANTI

Human stories and real portraits express the character of Surya Shanti and help guests connect with the people behind the place.

## Ibu Ati. Pauline. Sylvie.

Portraits and photographs follow the friendship of Ibu Ati from Bali, Pauline from the Philippines and Sylvie from France. Their shared dream, the 2010 inauguration and the connection to Sidemen unfold through a human narrative. This gives guests a meaningful introduction to the origins, values and people behind your welcome.

# Built around your priorities.

A personal proposal for Surya Shanti's next website.

I created this concept specifically for Surya Shanti.

My aim is to give your website a visual identity that reflects the warmth of the hotel, while helping guests explore its rooms, experiences and people.

We can refine the design, content and page structure around your priorities, then agree together on the scope of the project.

I'd love to hear what matters most to you. Would you be open to a short call to explore the idea together?
